

IB2 Trolley Electric Compressor

IBIX AUSTRALIA 

T: 1300 860 063

E: info@ibix.com.au

P O Box 645

Newport Beach NSW 2106

The IB2 is the only single phase electric screw compressor available.

Its size is smaller and more compact than piston compressors with a similar output.

It is very quiet, because the efficient design allows it to operate at low revolutions. This efficiency also means has an excellent performance to power ratio, with a low 2.2 KW consumption and 3HP power.

The compressor is small and easy to transport, and can be fitted into the trunk of a station wagon.

FEATURES

- smaller than a piston compressor of similar power.
- quiet 69 dB
- matches Ibix 3 portable blasters -2.5 mm nozzle venturi or a 3 mm nozzle cylindrical.
- 50 hz single phase (220 Volt) supply
- output 310 l/min (11 cfm) - higher power models available
