Dust removal by finely sprayed water dome, especially useful in cases involving very fine grain sized blasting materials. Portability allows work independent of a connection to a constant water supply, and the fine spray reduces water usage.

### TECHNICAL SPECIFICATIONS

24 litre capacity stainless steel tank wheeled

Max working pressure: 8 bars

Weight on empty: 15 kg

Compressed air connector

Water spray nozzle with special support bracket for IBIX spray gun fixing, water on/off tap, tank to nozzle water delivery hose
